

Suicide Prevention Training for New Employees

This online training is intended to meet Texas K-12 public school suicide prevention training requirements and other suicide prevention training needs. It is a best practice based training listed in the [BPR Section III Adherence to Standards](#) (HB 2186).

ASK About Suicide To Save A Life provides participants with an overview of the basic epidemiology of suicide and suicidal behavior, including risk and protective factors. Through this five-part video series, participants are trained to recognize warning signs—behaviors and characteristics that might indicate elevated risk for suicidal behavior—and how to intervene with a person they think might be at risk for suicide.

About the ASK Training

This is a five-part video series that takes approximately one hour to complete. Each video is 10-15 minutes in length. As you complete each video, simply click the “next” button at the bottom of the screen and it will automatically direct you to the next video in the series. After you have finished viewing the five part series, there is a short 10-question quiz. You will need a passing score to receive a certificate of completion. Please watch these videos carefully, if you do not receive a passing score of 80%, the video series will have to be repeated to attempt the quiz a second time. You may log out and resume your training at a later date.
